

## Lee Constable: Science, Environment, Sustainability

Primary School, Years 3–5

So you want to save the whole stinkin' planet? You're not alone. But what does the planet need saving from? WHY is it such a stinkin' problem? And what can you do? (*How to Save the Whole Stinkin' Planet*, page 8)

- **Research:** What happens to your household rubbish after it is taken away?
- **Discussion Point:** Why do you think Lee's book, *How to Save the Whole Stinkin' Planet*, is important?
- **Question:** Is it possible for one person to make a difference when the problem is so BIG? If so, what is one thing that you can do to help our planet? If not, why not?
- **Think:** What do you think 'war on waste' means?

## Key Curriculum Areas

**Learning Areas:** English, Science, Technologies

**Capabilities:** Critical and Creative Thinking, Personal and Social Capability, Ethical Understanding

**Cross-curriculum Priorities:** Sustainability

## About the Session

**Lee Constable** is into all things science, technology, and sustainability, and knows all too well the worrying impact that discarded things and unwanted waste have on our environment.

Follow along as she and Captain Garbology (her super-powered alter ego) embark on a compost-filled, rubbish-laden adventure through landfills and wastepaper baskets to unlock the secrets to saving our planet. But you'd better hurry – it's getting stinky and time is running out!

## About the Author

Lee Constable aka Captain Garbology is a science TV/digital presenter and the author of *How to Save the Whole Stinkin' Planet*. This superhero journey through all things trash and treasure will make young waste warriors grossed out and giggly as they get hands on and quizzical while using science to save the planet.
